

## DIOCESAN COLLECTIVE WORSHIP FRAMEWORK

### YEAR 2/TERM 5/WEEK 2 - CHANGING OUR PERSPECTIVES ON THE SYMBOL OF THE CROSS

The image of the Cross changes when you look at different parts of the world. The different images carry the same core message about the Christian belief that Jesus came to suffer and to die as part of God's plan for him and for the world (John 3 v 16). However the ways in which the crosses are constructed also often says something important about the communities in which they were created and conceived.

By exploring different crosses make sure that you are able:

- to enable children and adults to see the cross through the eyes of other cultures and traditions
- to prompt discussion and debate on why this single, historical event continues to exercise such an influence worldwide
- to explore how Christians in a wide variety of places, different times in history and in different circumstances, have lived purposeful lives because of their faith in a Christ, who died and who is risen - symbolised by the cross

Although we have celebrated Easter, the Church season continues for several weeks, providing the opportunity to continue to reflect upon the meaning of the Cross and what it can teach us.
